

An **ECLECTIC** mix of **ART PRINTS**

# WELCOME TO WINE ART

It's an A-Z of sorts, chronicling in art some of our favourite grape varieties. Yes there's no Q or D, and there are three Ms, but there is an A and a Z so – you know – it works for us, and there's plenty more to come. Watch us fill in the gaps over the coming months and years as we continue this labour of love and delve deeper into our experience of wine and design; two things very close to our hearts.

It's in essence a collaboration between designers, illustrators and copywriters, each one bringing a unique perspective and passion to the page.

I hope you enjoy this collection - and that it inspires, amuses and catches the eye.

A handwritten signature in black ink, reading 'Abigail Barlow'. The signature is fluid and cursive, with the first letter 'A' being particularly large and stylized.

## LABOUR OF LOVE

All the artworks are created by Barlow & Co, a wine-specialist design studio based in Chiswick, London.

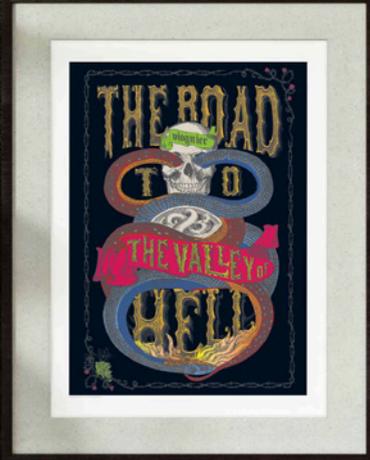

Starting with a story or little-known fact about a grape, the team then make a visual narrative to bring that to life. They work with a variety of methods including illustration, watercolour, pen & ink, photography, screen printing or new media to create the individual pieces.

## EXHIBITION QUALITY

We print all the artworks as Giclée prints on premium Cotton Rag paper, using the latest Epson professional Ultrachrome inks.

Giclée printing is a fine art digital printing method using specialist archival pigment inks and acid-free papers; creating gallery-quality inkjet prints with excellent depth of colour, longevity and stability.

## OUR VISION

Wine Art is an on-going project and we will be adding more designs over time. There are over 10,000 different grape varieties, so we have plenty to choose from! If there is a grape you'd like to see in the collection, please email or message us on social media.
